

YES—God is Good!

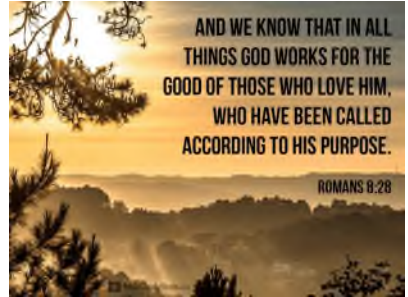

Romans 8:28

We have noted that we must counter the world's view of this goodness of God matter in light of the reality of evil, suffering and pain. The world says:

“If God is really able... and does not do something about evil and suffering, then He is not good or He does not care.”

“If God is good and cares, but does not do something, He must not be able.”

This dilemma has been around a long time.

1– This promise is stated against the backdrop of a suffering world.

2– The character of God is on the line, so we must provide a reasonable answer.

3—The ways of God force us to take another look at how His goodness works.

The 8-2-8 Promise is a YES...GOD is Good!
